Welcome to my personal domain on the Internet. I use this to publish my email policy, presentations and miscellaneous files.

## Who is Henrik Kramshøj

A grumpy old UNIX fanatic with a fondness of old-school UNIX hardware and new systems running OpenBSD/Amd64 and Mac OS X. I often speak up about everything and usually voice my opinion in a direct tone and language - often using colorful phrases that I won't repeat here.

It is impossible to be friends with everybody, choose your friends wisely.
